More Comfortable, Safer
More Realistic and Natural,
More Solid Eco-Friendly Flooring.

NOX LVS⁺

LUXURY VINYL SHEET

NOX Roll Sheet Collection

**4.5T
3.2T**

Qualities of LVS+

1st More Advanced! More Innovative!

Developed by NOX, Global Flooring Innovation Leader

NOX is a professional flooring company that has been leading innovation for global LVT customers. Developing premium products that are highly recognized by customers, designers, and architects across the industry, NOX is currently exporting to over 50 countries and has a leading market share in global markets such as Germany, United Kingdom, France, Japan, and the United States.

More Solid, NOX EMT™ Core Multi-Layer Structure

Applying NOX EMT™ Core multi-layer structure, which has already proven its performance across the global market, NOX LVS+ ensures strong durability, dent resistance, and excellent constructability with enhanced floor adhesion. Further, the consistency in product thickness eliminates differences in floor height.

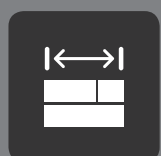

Cleaner, More Luxurious! NOX EPT™ Shield Premium Natural Matte Coating

Applying NOX's own EPT™ Shield surface coating that is easy to clean and resistant to scratches, dents, discoloration and contamination, NOX also applied 'Premium Natural Matte' for the first time in the industry to develop unprecedented sheet flooring.

Quieter, Better Resistance to Noise NOX EMT™ Core SoundProtec Technology

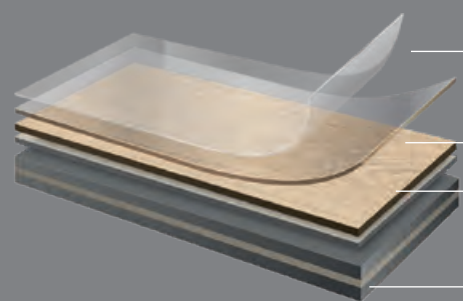

NOX LVS+ structure consists of a high density cushion layer made with NOX EMT™ Core SoundProtec Technology. This elastic cushion layer provides not only excellent foot comfort, but also impact absorption that reduces noise.

More Realistic, World's First Embossed-In-Register More Natural, 'GRANDE Design' like Solid Wood Floorings

NOX's Embossed-In-Register makes available highly realistic designs that closely resemble the original material's texture: wood grain, tile grout lines, fabric texture, etc. (Applicable to 2.2T and thicker) With enlarged wood planks, 'GRANDE Design' adds a spacious effect.

NOX LVS+ Structure

With NOX EPT™ Shield & EMT™ Core Technologies

EPT™ shield
Anti-bacterial Non-Slip PU coating treatment

Clear design protection layer

EMT™ core - 5L
HD design print layer
Fiberglass stabilization layer
Extra sound absorption layer-triple (4.5T only)

Qualities of LVS+

2nd Calmer, Quieter!

01 Korea's First and Only Sound Absorption Flooring to Receive QUIET MARK

With NOX's own EMT™ Core multilayered structure and SOUNDPROTEC acoustics performance technology, LVS+ is Korea's first flooring to have received QUIET MARK - an international certification that global leading brands share.

QUIET MARK ?

Quiet Mark is the independent, international approval award programme associated with the UK Noise Abatement Society charitable foundation. Through scientific testing and assessment, Quiet Mark identifies the quietest products in a given category giving consumers more informed choice about the products they buy. The Quiet Mark scheme drives designers and manufacturers to reduce sound levels in their products enabling consumers to enjoy a less stressful domestic soundscape.

QUIET MARK Certified: NOX LVS+ 4.5T

02 — Upgraded Quietness, Away from Life's Noises

NOX LVS+ enables a quiet, peaceful and less stressful domestic soundscape by reducing life's noises, such as vacuum, furniture movement, or floor noises.

Qualities of LVS+

3rd

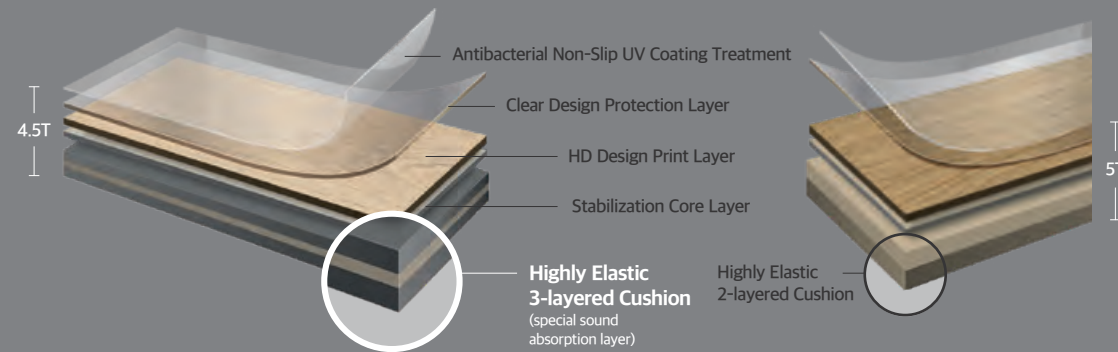

Softer and More Comfortable!

01 — World's First Highly Elastic 3-Layered Cushion Structure

NOX LVS+ is the first flooring to apply a highly elastic 3-layered cushion in a thickness that is 20% thinner than the typical product with a 2-layered cushion. This innovative structure gives NOX LVS+ its outstanding impact absorption and resilience.

NOX LVS+ 4.5T Cushion Structure

Others' Roll Sheet 5T

02 — Foot Comfort and Joint Protection

NOX LVS+ structure consists of a highly elastic 3-layered cushion, giving not only excellent foot comfort, but also impact absorption that is 2.3 times higher than wood flooring.

NOX LVS+ ensures safety for all family members - joint protection for the elderly, less danger for children, patella dislocation prevention for pets, and more.

Qualities of LVS+

4th

Safer, Healthier!

01 — Safe & Eco-friendly Flooring

NO Phthalate Plasticizers! NO Heavy Metal Contents!

With the use of eco-friendly plasticizers, all NOX floorings have received eco-friendly certifications.

02 — Safe for All Family Members

Prevent Pets' Patellar Dislocation

Protect the Elderly's Knee Joints

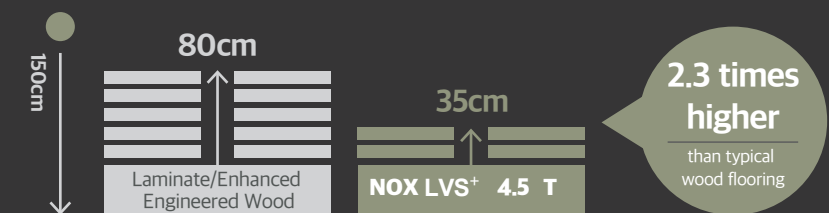

Decrease Children's Risk of Injuries

03 — Impact Resistance Test Results

NOX LVS+ has 2.3 times higher impact resistance than typical wood floorings. A high density cushion layer made with NOX EMT™ Core Technology provides excellent foot comfort.

※ Measuring the height of a bouncing golf ball at 1.5m high

※ Test Result by Own Lab

04 — Slip Resistance Test Results

What is Slip Resistance?

Non-slip surface coating guarantees safety. Flooring with a higher slip resistance coefficient is more slip-resistant.

Laminate/Enhanced Engineered Wood

0.71

NOX LVS+ 4.5T

1.10

1.5 times higher
than typical wood flooring

※ Test Center : Korea Conformity Laboratories (KCL)

※ Test Standard : KS M 3510, KS M 3802

※ Test Value : Coefficient of slip resistance (C.S.R · B)

※ Test Condition : Barefoot, wet surface (water sprayed in 400g/m² proportion)

※ Test results may differ by emboss type

Qualities of LVS+

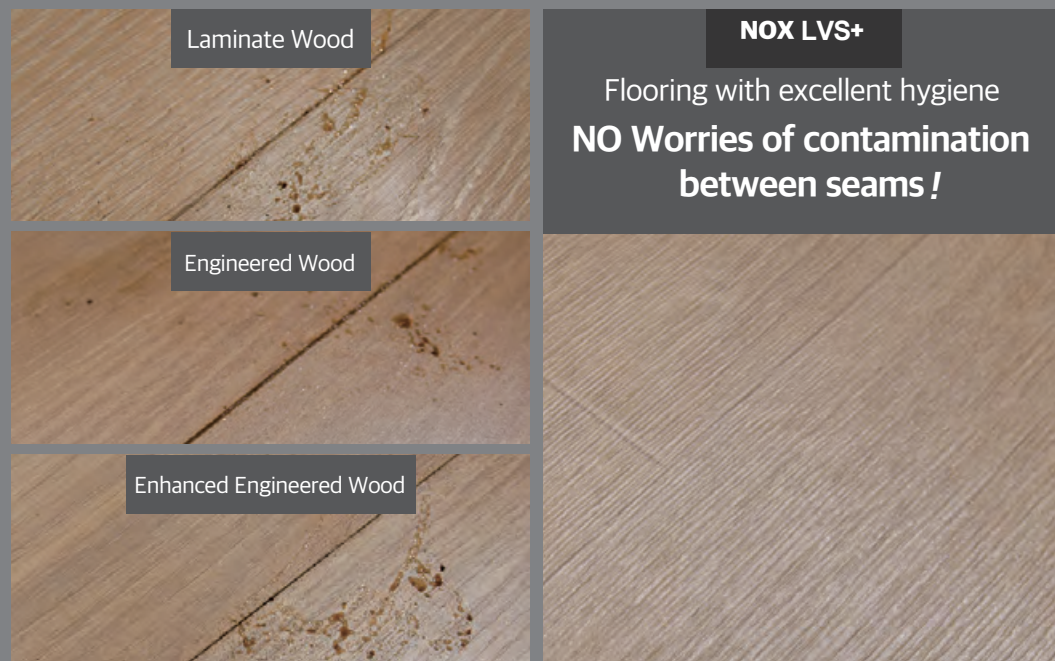

5th **Cleaner, More Luxurious!**

01 — **EPT™ Shield Premium Natural Matte Coating**

With NOX's own EPT™ Shield surface coating, no worries regarding moisture, discoloration, contamination, scratches, or dents are necessary. NOX is the first in the industry to apply 'Premium Natural Matte' coating, ensuring long-lasting luxurious texture without losing clarity in design.

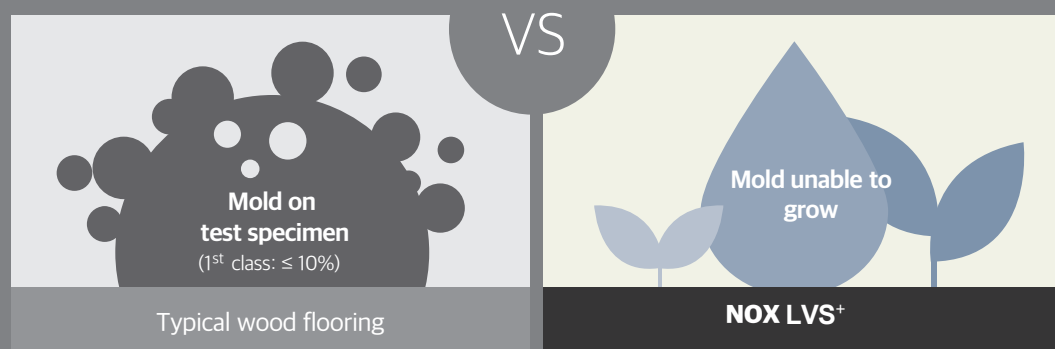

02 — **Easier Cleaning & Maintenance**

LVS+ is highly resistant to external contamination between seams.

03 — **Eco-friendly Flooring with Perfect Hygiene**

LVS+ is eco-friendly, hygienic flooring that is mold resistant and free of phthalate and heavy metals.

Qualities of LVS+

6th **More Realistic, More Natural!**

01 — **More Reality, World's First Embossed-In-Register & Rustic Edge**

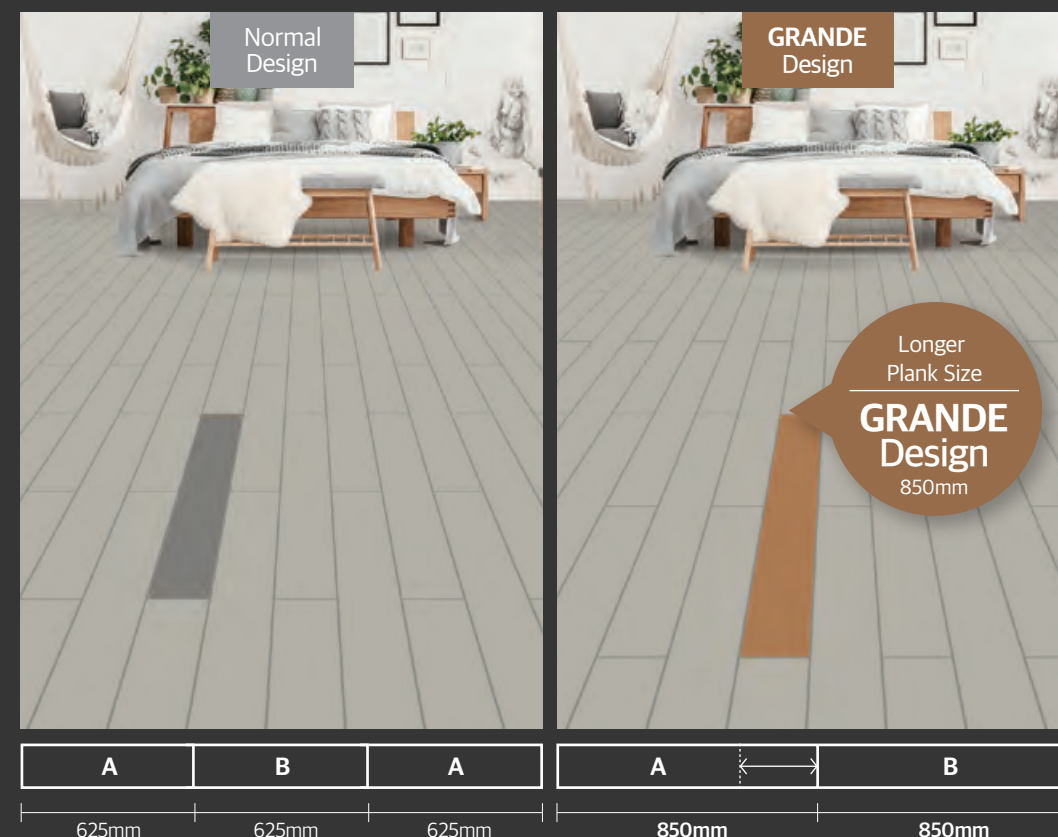

With NOX's Embossed-In-Register applied, LVS+ has highly realistic designs that closely resemble the original material's texture: wood grain, tile grout lines, fabric texture, etc. In addition, with Rustic Edge first developed by NOX, it is able to create detail interior by more natural wood textures.

02 — **More Unique, State-of-the-Art Designs**

Through this LVS+ collection, NOX's In-house global design team introduces unique designs - the first terrazzo design for sheet flooring, differentiated versions of natural material designs, such as herringbone wood, ceramic tile, bianco carrara, and more.

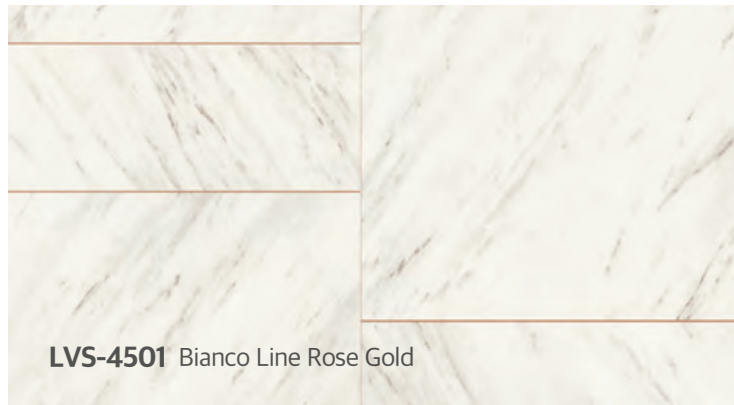

03 — **More Natural, 'GRANDE Design' like Solid Wood Floorings**

Apply 'GRANDE Design' to give a spacious effect with enlarged wood planks. NOX's Embossed-In-Register adds further reality in material texture with emboss that closely fits the design.
